

## **Review of the Treasury Management Policy and Annual Report on the Terms and Conditions of Borrowings**

### **Background**

In 2012 the Finance Committee agreed the Treasury Management Policy and Terms and Conditions of Borrowing. The purpose of this report is to conduct an annual review of this policy, outlined below

### **Investment Strategy**

The Parish Council is required by the Local Government Act 2003 to determine an annual Investment Strategy. The Strategy will be a public document as defined by the Freedom of Information Act 2000.

All of the Parish Council's investments will be Specified Investments and therefore:

- a) All investments will be made in sterling and any payments or repayments will also be made in sterling;
- b) All investments will be short term investments not to exceed 12 months;
- c) Westfield Parish Council will use accounts with UK banks/building societies and/or local authorities or other public authorities.

### **Accounts**

Westfield Parish Council maintains the following accounts/investments:

- Current account for everyday needs –with the Co-operative Bank
- Corporate Treasury savings account – with the Co-operative Bank
- Business 95-day Saver account – with Nationwide

In accordance with minute 131 of the Finance and Personnel Committee 23/04/12, approximately £10,000 is retained in the Current Account. An agreed amount of reserves is held in a high interest account with the remainder in the instant access Savings Account for transfer to the current account month on month to meet expenditure.

On 1/10/15 the Parish Council took advice from St James Wealth Management who raised the following issues for on-going consideration:

- (1) the Parish Council is only covered for £75,000 per bank should a bank close. (Increased to £85,000 in January 2017) Therefore it is worth being aware of banks which operate under the umbrella of a single bank eg. Tesco bank is not a bank in its own right but is part of another bank;
- (2) that the low risk banks are those which operate solely in the UK.

The high interest investment reserves were increased to £75,000 in October 2016 (minute 60 of the Finance and Personnel Committee 19/10/16) and

## WESTFIELD PARISH COUNCIL

further increased to £85,000 in December 2017 (minute 82 of the Finance and Personnel Committee 22/11/17).

### **Reserves**

In October 2013 Westfield Parish Council agreed to aim for four months net expenditure included in the annual precept to be held in general reserve. In December 2019, after consideration of risks that were no longer relevant this was reduced to “at least 3 months net expenditure”. This means that we regularly have appropriate surplus funds available and it is important that such funds are invested prudently with due regard to the Council’s fiduciary responsibility to the Council Tax payers and to the priority for security and liquidity of those investments.

For information, amounts held in reserves are detailed below.
