

## **Definition of terms used within the Landscape Specification**

Clean:	wash with a detergent solution to remove mud or dirt left by users or atmospheric conditions.
Inspect:	examine visually for damage, or wear or tear that requires restorative action.
Test:	examine, using appropriate equipment, to confirm that the item is fit for purpose.
Check:	Confirm that the item continues to be fit for purpose.
Dispose:	Take to a waste transfer/re-cycling station.
Mark out:	Use a machine that leaves a white line on the grass.
HSE:	Health & Safety Executive.
AcoP:	Accepted code of practice.
